

IN THE SPECIFICATION:

On page 6, after line 19, please add the following sentence:

A1 Figs. 6A-6B illustrate another embodiment of the headrest of the present invention, showing the wing members being vertically rotatable relative to the back member. -

On page 10, line 18, after "back member 135c.", please add the following sentence:

A2 In another embodiment, illustrated in Figs. 6A-6B, for purposes of facilitating stowage of the headrest 210, the wing members 235a, 235b of the headrest 210 are vertically rotatable relative to the back member 235c by providing to the first and second hinges 236a, 236b, respectively, swivel or ball joints 250a, 250b, respectively. -

IN THE CLAIMS:

Please cancel Claims 7, 11, 14, 15, 16 and 21 without prejudice to or disclaimer of the subject matter contained therein.

A3 1. (Amended) A headrest for supporting a person's head, said headrest comprising:  
at least a first wing member adapted to abuttingly engage at least a first side portion of the head;  
a back member adapted to [abuttably] abuttingly engage at least a back portion of the head; and  
at least a first hinge for interconnecting said first wing member to a first portion of said back member, wherein said first wing member is pivotable relative to said back member, wherein at least said first hinge includes a first pivot adjustment member for maintaining said first wing member in at least a first of a first plurality of pivot positions relative to said back member, said first pivot adjustment member comprising a first torsion spring.

A4 2. (Amended) A headrest as claimed in Claim 1, further comprising a second wing member interconnectable to said back member via a second hinge [member], wherein said [first
